**TUESDAY 20<sup>TH</sup>  
AUGUST 2026**

PRIMARY ELECTION DAY

\*\*\*\*\*

**Raul Gallon** is not a career politician, he's a father, entrepreneur, and problem-solver who has spent more than two decades helping Florida families navigate insurance, housing, and financial challenges.

- ★ A business owner who knows how to improve efficiency and eliminate waste
- ★ Independent leadership, not controlled by special interests
- ★ Real disaster-recovery experience helping families after hurricanes
- ★ A leader who has lived the American Dream, understands real struggles
- ★ Deep community ties and commitment to District 100
- ★ Bilingual (English/Spanish) — able to represent ALL communities in District 100

**Raul knows the struggles of real families, because he has lived them.**

# Raul's PRIORITIES

## PROTECTING HOMEOWNERS & FIXING FLORIDA'S INSURANCE CRISIS

Raul will hold insurance companies accountable, eliminate unfair caps like the \$10,000 water-damage limit, crack down on fraud, and require clear, plain-language policies so families get the coverage they pay for.

## PROTECTING COMMUNITIES FROM OVER-DEVELOPMENT

He supports responsible growth that matches infrastructure, prevents flooding and traffic gridlock, preserves neighborhood character, and ensures developers, not taxpayers, pay their fair share.

## REDUCING CITIZENS' MONOPOLY & LOWERING PREMIUMS

Raul will work to restore a balanced insurance market by bringing back private competition, reducing Citizens' overgrowth, stabilizing regulations, and protecting homeowners from hidden assessments and surprise costs.

## COMBATING THE OPIOID EPIDEMIC WITH COMMON-SENSE MEASURES

He supports expanding addiction treatment, strengthening penalties for traffickers, and launching school and neighborhood programs to prevent fentanyl deaths and synthetic drug use.

## BUILDING SAFER, STRONGER COMMUNITIES

Raul will support small businesses, improve community policing, expand senior services, and invest in modern infrastructure and flood-protection systems that make District 100 resilient.

## ADDRESSING HOMELESSNESS WITH ACCOUNTABILITY & SUPPORT

Raul backs structured housing solutions, not street camping and will expand job training, mental-health support, daytime service centers, and improved coordination between police and social services.

## About RAUL GALLON

Raul Gallon came to the United States 30 years ago in search of opportunity, stability, and a better future for his family. Like many in District 100, he worked hard, started from zero, and built a life through dedication, discipline, and determination.

In two decades, Raul has risen from an entry-level adjuster to president of a Florida company **operating in 19 states**. His advanced certifications and catastrophe-response experience have made him a trusted expert who has assisted more than **15,000 families with their residential claims**.

Raul is fully bilingual in English and Spanish, giving him the ability to communicate directly with the

diverse communities across District 100. His company has created local jobs, trained dozens of professionals, and supported homeowners after every major storm in Florida for more than 16 years.

He knows the struggles of working families because he has lived them—skyrocketing insurance premiums, housing insecurity, school concerns, inflation, and the daily challenges of raising a family. His leadership style is simple: be honest, be transparent, and put people first.

Raul is not a career politician, he's a father, business owner, and community advocate who has helped thousands of Florida homeowners recover after storms. With experience in consumer protection, disaster recovery, and small-business leadership, he believes elected officials should work for the people, not themselves.

His mission is to restore trust, defend homeowners, support families, and ensure every resident in District 100 has a voice and a leader who truly listens.
